ON-PANEL PRINTER MODULE FOR SMARTLOOP CONTROL PANELS

SMARTLOOP

The SmartLoop/PRN thermal printer module mounts to the front of the control panel and connects directly to the motherboard by means of a connection cable (included). It uses 82 mm thermal roll paper.

The SmartLoop/PRN provides a continuous real-time printout of events and/or date to date enquiry printouts. It can also print complete loop reports containing information about dust accumulation and detector functionality. The SmartLoop/PRN can be mounted to SmartLoop1010P and SmartLoop2080P models only.

MAIN FEATURES

- Compatible with SmartLoop/P control panels
- Provides real-time printouts of all system events
- Provides event enquiry printouts
- Provides loop diagnostic reports (value readings, contamination status, BUS signal reception level for each loop device)

INSTALLATION

The SmartLoop/PRN module connects directly to the motherboard by means of a connection wire (included). The SmartLoop/PRN is compatible with SmartLoop/P control panels, as only these panels are equipped with the specific housing.

TECHNICAL SPECIFICATIONS

- Operating voltage 24 Vdc
- Current draw (during printout operations): 1A
- Paper: 82 mm thermal roll

ORDER CODES

SmartLoop/2080-P: control panel with 2 loops expandable to 8, equipped with command keypad, display, status LEDs and housing for SmartLoop/PRN printer (accessory item)

SmartLoop/2080-G: control panel with 2 loops expandable to 8, equipped with command keypad and display

SmartLoop/2080-S: control panel with 2 loops expandable to 8, with unequipped flush front

SmartLoop/1010-P: control panel with 1 loop, non-expandable, equipped with command keypad, display, status LEDs and housing for SmartLoop/PRN printer (accessory item)

SmartLoop/1010-G: control panel with 1 loop, non-expandable, equipped with command keypad and display

SmartLoop/1010-S: control panel with 1 loop, non-expandable, with unequipped flush front

SmartLoop/PRN: printer module for SmartLoop/XOX0-P only
