Public Address

Sound sources

P8083

See details below.

P8083 • CD-MP3/USB/SD Card player and FM/AM stereo tuner

A single container that can be mounted in a standard 19" rack and is one modular unit high, comprises a CD-MP3/USB/SD Card player and an FM/AM stereo tuner.

Functional features

- Volume control and independent audio outputs on a double RCA socket for both sources of sound.
- Combined audio output from which it is possible to pick up both signals of the modules with priority of the CD player over the tuner.
- CD player module with back-lit display and shockproof system.
- Normal, repeat, random or programmed play functions.
- Stereo FM/AM tuner module with backlit display, automatic and/or manual tuning, pre-selection of up to 20 stations (10 FM plus 10 AM), and SLEEP function.
- FM and AM aerial included.
- Power supply: 230/115VAC - 50/60 Hz | 24 Vdc
- Dimensions (W x H x D): 482 x 44 x 285 mm

The CD player is supplied with a remote control enabling full remote management.

P8083-R • Digital USB/SD Card player/recorder

The P8083-R is a digital recorder and player for audio files in MP3 format on external storage devices such as SD cards or USBs (playing of MP3/WMA audio files and recording in MP3 format).

Functional features

- Front-panel master volume control.
- Rear-panel line input and output on a double RCA socket.
- Management of external storage devices from 128 MB to 16 GB (SD Card/USB).
- Possibility of selecting the recording quality (128 Kbps or 192 Kbps).
- Recordable audio tracks up to a maximum of 99.
- Possibility to programme customised sequences for playing out the music and to select and repeat a single section of a piece of music.
- Files can be deleted and it is possible to copy data from a USB to an SD card or vice versa.
- Large backlit display for showing the various different functions.
- Power supply: 230/115VAC - 50/60 Hz | 24 Vdc
- Dimensions (W x H x D): 482 x 44 x 285 mm

A remote control enabling full remote management is supplied with the equipment.

The P8083-R has provisions for mounting in a standard 19" rack and has the height of a single unit.

Available on request

Other models created by combining various different modules of the P8083 range are available on request. They all feature a standard container suitable for mounting in a standard 19" rack and of the height of one modular unit. Double RCA sockets are provided for connecting the line outputs on the rear panels, using standard stereo cables.

- Power supply: 230/115VAC - 50/60 Hz | 24 Vdc
- Dimensions (W x H x D): 482 x 44 x 285 mm

P8083-ALL

CD-MP3/USB/SD CARD player and FM/AM tuner. Master volume control. Backlit display. CD player with shock-absorbing system. normal, repeat, random or programmed play functions.
